EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jamie T. Gallagher on October 24, 2006. The application has been amended as follows:

In the Claims:

Claim 1: last line, replace "of the body. " with --of the body based on said solving of said plurality of differential equations. --

Claim 34: last line, replace "of the body. " with --of the body based on said solving of said plurality of differential equations. --

Claim 35: last line, replace "of the body. " with --of the body based on said solving of said plurality of differential equations. --

Claim 36: last line, replace "of the body. " with --of the body based on said solving of said plurality of differential equations. --

Claim 37: last line, replace "of the body. " with --of the body based on said solving of said plurality of differential equations. --

Claim 38: last line, replace "result of " with --modeled circulatory system dynamic of the body based on--

REASONS FOR ALLOWANCE

Claims 1-11, 13, 15-28, and 30-38 are allowed. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach the specific combination of elements as claimed in independent claims 1, 18, and 34-38. In particular the prior art fails to teach *inter alia*, the feature of providing an atmosphere compartment that represents a space located outside the body and wherein a differential equation accounts for a pressure of the atmosphere compartment; in combination with an

intracranical compartment, an extracranial compartment, and a representation of a heart pump; deriving and solving a plurality of differential equations governing a pressure dynamic of the compartments; and producing a modeled circulatory system dynamic of the body based on the solved differential equations. The closest prior art of record does not teach or fairly suggest these features in the combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

- Parti (USPN 5,680,590) – discloses a system for simulating physiological functions and pharmacological actions of drugs in human or animal systems.
